Tonya Wingfield

8:35 AM (2 hours ago) ☆

to davez, Verjeana, carolyn.boston, Joanne, Michael, Carolyn ▾

Today is the first Sunday in three months I haven't had to travel. My thought was to watch the June 28th board meeting. Too my surprise the days and times when meetings are repeated was no where to be found on the website. I attempted every possible keyword search to locate the information and nothing.

I cannot believe this was an oversight because one of the most basic tasks of any provider of televised services is to provide a programming schedule. I know this information was available on PGCPSS' website at the beginning of the school year. Why it has now been conveniently removed is shameful, and shows this School Board's continued lack of respect and consideration of all stakeholders.

I will expect an immediate resolution to this issue.

Ms Wingfield I have copied your email to Our Communications Director, Mr. Coleman. The schools district has been trying to manage the numerous outings following the storm on Friday and the system is also on the 4day workweek schedule

We certainly appreciate your interest and desire to watch the June 28th board meeting and others I'm sure. Mr Coleman will also respond regarding the adjustments in scheduling based on staff scheduling for the summer. It will be available early in the week for you.

Verjeana M. Jacobs, Esq.
District 5 Representative
Chair, Board of Education

Briant Coleman

to Verjeana, Michael, carolyn.boston, me, davez, Carolyn, Joanne ▾

Tonya: Stop spreading false information!

Board meetings are posted the next business day following a board meeting. Since we are on a four-day workweek schedule, the next business day is Monday. If you would like to continue this conversation offline, feel free to contact me on my cell: [240-619-6293](tel:240-619-6293).

to William, Briant, Verjeana, Michael, carolyn.boston, davez, Carolyn, Joanne, bcc: Donna

Mr. Coleman,

Before attempting to call me a liar checkout the website. Second, this is information that should be available at all times since the school system provides 24-hour webcast service and weekend television broadcasts when offices are closed. So your reference to any work schedule or the fact you do not have access to the internet today is irrelevant, except that it demonstrates what is lacking concerning the level of service that is to be provided to the citizens of Prince George's County. Stakeholders should have continuous access to public information when it's within the System's ability to do so -- that is what our tax dollars afford us and that is what has been until this recent change.

I have provided you a series of screen captures to clearly show the information is not available. Also, if you do not want your staff members to receive emails regarding problems or issues that exists then you should add your contact information to the directory. As you can clearly see I directed my email to the name listed as the Senior staff member in this department.

Again, an immediate resolution of this matter is expected.

Webcasts Frequently Asked Questions

Webcasts Frequently Asked Questions

- What do I need to watch PGCPS TV on my computer?**
 - For PCs: Windows Media Player 9 for the PC
 - For Macs: MAC OS X and Windows Media Player 9 for the MAC
- I cannot open the link on a Mac computer - what do I do?**
 - Check to make sure you have Windows Media Player 9 for the MAC. If not download and install it.
 - Open up Windows Media Player 9.
 - Click on File then Open URL.
 - Type or copy and paste this address into the address window that pops up:
 - <mms://tv.pgcps.org/pgcps1>
- The video stops, starts and freezes during the webcast. What's wrong?**
 - During high internet traffic times (usually between 6pm and 9pm in the evening), you may experience some of these problems. It has to do with the network traffic on your internet connection from your internet provider (cable, DSL, FIOS, etc.) Usually the audio will be fine and the video will "catch up" during the broadcast.

You were asked not to contact me on this matter again. This email and any other you send will be deemed as harassment.

Tonya Wingfield

10:54 AM (18 minutes ago) ☆

to joanne.benson, William, Verjeana, Carolyn, Michael, carolyn.boston ▾

Dr. Hite,

Here is my original email to Mr. Zahn. Yes, I was disturbed to find that the programming schedule that has years been available 24 hours on line for the school system's television station was suddenly unavailable. You were copied on my response to Mr. Coleman after it was apparent he was more concerned with how this missing information made him look rather than resolving the problem. Moreover, he never demonstrated leadership by providing the information I was seeking. Instead he provided me every excuse under the sun as to why the information was unavailable. Sure I was upset, but as the leader of the Communication Department, Mr. Coleman should understand his role and taken steps to defuse this situation. Instead he stoops to childish words like bullying. Demanding the services I am afforded as a stakeholder and taxpayer is not bullying; it's called accountability.

Seeing that Mr. Coleman does not know the difference explains why after trying to take a break from dealing with school system issues, I continue to receive calls from parents and community leaders about how the school system is not transparent and putting up barriers that prevent parents and other stakeholders access to basic information. This is clearly a perfect example: The Programming Schedule that shows the rebroadcast times for board meetings.

Due to Mr. Coleman's unprofessional response, I have asked him not to contact me directly concerning this matter and will deem any additional messages from him that are not on a professional level as harassment.
